IMPORTANT INFORMATION

All residents must be registered with Office !! And no renters are allowed in any facility without owner present.

Remind all visitors that speed limit is 15 MPH We do not have sidewalks so please be aware of your surroundings Walkers expect you to stop at stop signs..

**SPEED
LIMIT
15**

If you see something suspicious say something, write it down or take picture with phone send to Office... We need volunteers for Neighborhood Watch, 1 hour of your day or evening to walk, ride or travel around through park and report any suspicious activity. Anything serious call Police Non emergency #954-973-6700

Wildlife has right of way and running over and killing them is not the thing to do. This is their habitat we are only renters for awhile please be kind ... Cameras are everywhere!!!!

To all new Community Members who are on Facebook we have our own page for residents go to groups and look for Deerfield lakeMFH and fill out questions about residency You will see all goings on in Community. Also we have HOA site as well deerfieldlakehoa.org

FIREWORKS

Please be reminded that Fireworks, including firecrackers are not allowed in the Community. The safety and well-being of our residents and their guests is our #1 priority.

The Management of Deerfield Lake would like to wish everyone a safe 4th of July holiday!!!

TRASH PICKUP

Every one should remember also to get your trash pails out to curb evening before pickup. The trash company likes to show up at the crack of dawn for removal and many people do not think they came, and miss their pickup. So get Your pail out Night before pickup.....

HAPPY JULY

July is upon us and the heat as well I hope everyone stays cool and enjoys our summer storms and all...

We had a nice Memorial day Gathering and there were about 50 attendees.

Mark Reca and Wayne Caswell Manned the grill, we had hotdogs and hamburgers and potato salad and coleslaw. Our servers were Linda Caswell ,Deb Henson,Judy Lucas & Ellie McDuffie. Barbara Licitra and Many others helped with cleanup and thank you all very much...

GATE PHONE NUMBER

We have a New Phone number for gate: when someone wants access to park number for gate will show up as 954-415-2871 put this in your contacts.

CPR CLASSES

We have sign up sheets for CPR Classes in Club House. We are supposed to have classes June 28 & 29th from 1-4:30 . If we do not have enough to fulfill these classes then we will wait until fall when our Snowbirds return.

HAPPY BIRTHDAY!

We Celebrated Ellie's Birthday at New Mexican restaurant on Johnson Rd and Rte 7 Tacareios,we had a great time the 6 of us and food was good as well.. Was attended by Ginger Irene, Connie D. Terry and myself Linda C.

HAPPY BIRTHDAY

DID YOU KNOW????

By Paulette Kramer

The Culinary use for Cuban Oregano leaves are best when they are fresh. You can use them in a salad or put in blender with other ingredients to make a pesto for pasta or to make a salsa. It even neutralizes the heat of hot peppers. Also try it in stuffings, soups and stews. You can use it with Black Beans too!!!! Enjoy Cooking !!

Quote Of the Month:

A friend loves at all times

And a Brother is born to help in time of need.

KOFFEE KLUTCH

Our Koffee Klutch is on every Tuesday Morning at 9:am, come out for Coffee and conversation, we enjoy ourselves talking about different topics.

**SAL'S
HANDYMAN SERVICES**

*Specializing in all Manufactured
Home Renovations*

732-614-4339

50 Years Experience
No Job Too Small!

sal@Tandkcontractors.com

CRAFTS

We have a crafts session at Clubhouse on Thursday mornings at 11am. If you do any kind of craft come sit with us and share conversation. If you are interested in doing Scrapbooking or Card making I (Linda Cammallere) have a lot of supplies to share and I can help if you do not know and want to learn. If you have something you can teach it would be welcomed as well. Hope to see you at Club House Thursdays at 11am.....

4TH OF JULY PARTY

Please take note Our 4th of July party has been cancelled because no one has signed up to help with decorating, set up and cleanup . Without volunteers these events can not take place it just can not fall on one or two people.

We also need help with event coordinating if we are to have any functions a little more input is very much needed . A few ideas are better than one!!!!

BINGO

There is Bingo at Tallowood Isle Park every Monday Evening at 7 pm if anyone is interested....

DEVELOP A HURRICANE PLAN

- Step 1** Hold a family meeting and get your children involved
- Step 2** Determine whether you live in an evacuation zone and where you will go when an evacuation order is given. Staying with family and friends outside the evacuation zone is your best option
- Step 3** Inventory your home possessions and video/photograph items of value. Review all your insurance policies, including your vehicle policy
- Step 4** Look for vulnerabilities such as your roof, windows, garage door, landscaping, tree branches near electric lines, etc., and determine what actions to take
- Step 5** Decide where you will store or park your vehicle, boat, or RV
- Step 6** Protect your home by trimming trees at the proper time, installing shutters, and/or purchasing a generator
- Step 7** Make arrangements in advance for people with special needs
- Step 8** Develop a plan for your pets
- Step 9** Determine your family's food, water and medical needs. Use our Eight-Week Shopping Guide to help with spreading out the cost
- Step 10** Notify others of your plan and establish an out-of-town contact. Let family or friends know your hurricane plan so they can check on you in the aftermath of the storm

KNOW THE LINGO

Hurricane Watch – Hurricane conditions are possible within 48 hours. Your preparations should be underway.

Hurricane Warning – Hurricane conditions are expected within 36 hours. Your preparations should be rushed to completion.

Storm Surge – An abnormal rise of water generated by a storm. Nine out of 10 hurricane fatalities are attributable to storm surge often causing extreme

flooding in coastal areas.

Storm Surge Watch – The possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within a specified area, generally within 48 hours.

Storm Surge Warning – The possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within a specified area, generally within 36 hours.

KNOW THE HAZARDS

Wind – A hurricane is a tropical storm with constant winds greater than 73 miles per hour. Hurricanes can also spawn tornadoes, which add to their potential for destruction.

Rain – Because of the tropical nature of hurricanes, they contain rain which can, at times, be torrential and cause floods and flash floods.

HURRICANE EMERGENCY KIT CHECKLIST

- At least one gallon of drinking water per person, per day for three to five days. Extra water is needed for food preparation, pets, and personal hygiene
- Enough food for three to five days, including non-perishable packaged or canned food, canned or shelf milk, cereal, snack foods, a three to five day supply of special items for babies and/or the elderly: formula, wipes, diapers, special foods, and toiletries
- Manual can/bottle opener
- Toilet paper, plates, bowls, napkins, paper towels, and plastic eating utensils
- Unscented household bleach and medicine dropper
- Extra bedding such as blankets, pillows, sleeping bags, etc., in case you must evacuate
- Clothing, including rain gear and sturdy shoes
- First aid kit, medicines/prescription drugs
- Hand sanitizer and sanitary wipes

...continued on page 6

- Flashlight, extra batteries, car charger, or solar charger for your cell phone
 - Battery-operated or hand-crank radio and hardline telephone with jack (not cordless)
 - Books, games, and toys
 - Pet food, cat litter, and other pet care items
 - Tool kit including cord, rope, hammer, wood nails, saw, hatchet or ax, crowbar, chainsaw blades, tarp, duct tape, and heavy-duty work gloves, and outdoor extension cords
 - Plastic trash bags and ties, extra re-sealable plastic storage bags, heavy-duty aluminum foil, and disposable aluminum pans
 - Extra charcoal or propane fuel and matches in a waterproof container for outdoor cooking. Sterno can also be used. **Never cook with any of these items inside your house. The smoke and fumes are deadly**
 - Fire extinguisher (ABC type)
 - Mosquito repellent with DEET, and sunscreen
 - Home Damage Assessment photos and instructions. Visit www.Broward.org/Hurricane
 - Any other special equipment or items you may need
- Online at www.Broward.org/Registry, by calling the Broward County Call Center at 311 or 954-831-4000 (TTY 954-831-3940), or by contacting your municipality's emergency management agency

All information provided will be held in strict confidence as required by state law.

If you move or no longer want to be included in the Registry, call your city or our Call Center at 311 or 954-831-4000 (TTY 954-831-3940).

A list of our General Population and Pet-Friendly Shelters, which should be considered a refuge of last resort, can be found by visiting the shelter page on the hurricane website.

Monitor our website, www.Broward.org/Hurricane, local television stations, or call our Emergency Hotline at 311 or 954-831-4000 for actual shelter openings. Not all shelters will be open during an emergency.

This Registry is a joint partnership between municipalities and Broward County

HAVE A DISABILITY OR SPECIAL MEDICAL NEEDS?

Start Planning NOW! Do NOT Wait!

SPECIAL NEEDS REGISTRY

For people with medical conditions who do not require hospitalization. Special Needs shelters provide basic medical assistance and monitoring.

Registration is open year-round.

- Register now with the Vulnerable Population Registry at www.Broward.org/Registry, or call 311. You can also call the Special Needs Registry at 954-831-3902 (TTY 954-831-3940)
- Make advanced arrangements with your service providers
- Discuss shelter options with your family and health care providers ahead of a storm
- Have at least a 30-day supply of medications
- Label all medical support equipment
- Create a personal information card with your health information including doctors, insurance

VULNERABLE POPULATION REGISTRY

This Registry is a joint partnership between municipalities and Broward County.

What is it?

The Vulnerable Population Registry is a tool that municipalities can use to help evaluate resident needs in their communities and assist in planning a response in an emergency. While registering in the database is not a guarantee that you will be provided services or placed on a priority list for responders, it will help responders be better prepared to meet your needs in a recovery. You only need to register once.

Pre-register:

- If you are at risk due to a disability, frailty, or health issue, regardless of age, and you elect to stay at home in the event of a hurricane or other emergency
- In advance, and before a storm threatens

policies, and medications

- Service animals must have a collar with identification and proof of vaccinations. Have a copy of written instructions for their care as well

EMERGENCY SHELTERS

People located in low-lying areas or beside tidal bodies of water should seek shelter elsewhere if conditions warrant.

ALL mobile home residents must evacuate in PLAN A and PLAN B and may be ordered to evacuate if tropical storm conditions warrant.

PLAN “A” EVACUATION Typically a Category 1-2 hurricane.

PLAN “B” EVACUATION Typically a Category 3 or higher hurricane.

GENERAL POPULATION AND PET-FRIENDLY SHELTERS NEAR DEERFIELD LAKE

All shelters do not automatically open during a state of emergency. They are opened as needed. Monitor Broward County’s website, Broward.org/Hurricane, local television stations or call our Emergency Hotline at 311 or 954-831-4000 for actual shelter openings. Emergency shelters are a service of the Broward County Commission and the School Board of Broward County.

1. Arthur Ashe/Rock Island 1701 NW 23rd Avenue, Fort Lauderdale 33311
2. Coral Glades High School 2700 Sportsplex Drive, Coral Springs 33065
3. Monarch High School 5050 Wiles Road, Coconut Creek 33073
4. Lyons Creek Middle School - **Pet Friendly** 4333 Sol Press Blvd, Coconut Creek 33073

WHAT TO BRING TO A GENERAL POPULATION SHELTER

- Identification
- Medications
- Compact bedding such as pillows, blankets, and air mattress
- Games, reading materials, cell phone, and mobile device with charger, batteries, etc.
- Service animals, if they meet the requirements under Federal Law
- Emergency health information card and emergency contacts
- Non-perishable snacks (including special dietary foods)
- Extra change of clothing
- Sanitary wipes or other hygiene products
- Water
- Flashlight
- Battery-operated radio
- Supplies for children, elderly and disabled family members, (games, baby formula, diapers, walker, wheelchair, and hearing device, etc.) if applicable
- Important documents such as birth and/or marriage certificates, social security cards, passports, immunizations records, wills, vehicle titles, insurance policies, stocks, bonds, and important electronic files

Provisions at the shelter are very limited and cots are not provided. Evacuees are encouraged to carry with them all items they will need during their stay at a shelter. Each person is allocated 20 square feet of space. Find more detailed information at www.Broward.org/Hurricane.

WHAT TO BRING TO A SPECIAL NEEDS SHELTER

In addition to the general population shelter list, bring the following items:

- Communications aids (paper, pencils, pens, and/or mobile device)
- Emergency health information card and emergency contacts
- Batteries or chargers for communication aids
- Mobility equipment (walker, wheelchair)
- Dressing devices for clothing
- Sanitary supplies
- Hearing devices and batteries
- Health monitors
- Dentures or retainers
- Compact bedding (medical cot provided)
- Heavy-duty gloves to use maneuvering wheelchair
- Service animal supplies and identification
- Special dietary foods, if required (meals are provided at the shelter)
- Folding lawn/lounge chair

TRANSPORTATION TO SHELTERS

- When an evacuation is ordered, Broward County Transit buses cease regularly scheduled service and begin emergency evacuation service from evacuation zones. The service coincides with the opening of shelters and will not begin before the shelters open. Under Evacuation Plan A, you can go to any regular bus stop along A1A. Under Evacuation Plan B, buses will run routes along both A1A and Federal Highway.

People with disabilities: If you need transportation to your assigned location, you are encouraged to make arrangements in advance as part of the Special Needs Shelter application process. Transportation is coordinated by Broward County Paratransit or the Office of Medical Examiner and Trauma Services, depending on your level of need.

KEEPING SAFE IN THE STORM'S AFTERMATH

Some of the greatest hurricane dangers present themselves after a storm has passed. Keep these important tips in mind.

- Treat all downed power lines as if they are live. If you see a power line that is sparking or arcing, call 911
- Walk cautiously and avoid standing water which may hide downed power lines or hazardous objects. Do not venture out in the dark because you may not see a power line that could still be energized
- Debris-filled streets are dangerous. Snakes and poisonous insects may be a hazard
- Do not drive unless it is an emergency. If the power is out, traffic lights will not be working, stop signs and street signs may have blown away. Streets will be littered with debris. Washouts may have weakened road and bridge structures
- Take precautions to prevent fires. Lowered water pressure and the interruption of other services will make it difficult for the fire department to respond after a hurricane
- Protect property from further damage. Plastic sheeting, plywood, lumber, and/or other materials can be used to seal or protect property that has been exposed by the storm. Make temporary repairs that won't endanger your safety
- Notify insurance representatives of any losses
- Take photographs or a video of damaged areas to substantiate your claim
- Prepare a detailed inventory of damaged or destroyed property for the adjuster. Include a description of the item, date of purchase, cost at time of purchase, and estimated replacement cost
- Be patient. Hardship cases will be settled first by insurance representatives. In a major catastrophe, the insurance industry will have emergency offices and extra adjusters available to expedite claims and speed up recovery efforts

MILITARY & SENIOR DISCOUNTS

BEWARE OF FLOODING HAZARDS

- If there is flooding in your home or business, be sure the building is not in danger of collapsing, and watch for loose and falling debris
- If floodwaters have reached your belongings, they are considered contaminated. This includes food, canned goods, cosmetics, and medicines
- Call a licensed electrician if you have significant water damage to your home that might make it unsafe for you to receive electricity
- If your home has natural gas service, be alert for gas fumes and call your local utility from outside the home if any are detected
- Do not drink water from the faucet unless it has been declared safe

TRAFFIC SAFETY TIPS

When traffic signals are not working, intersections should be treated as four-way stops. Prevent chaos by waiting your turn. Do not report downed traffic signals as Broward County Traffic Engineering's damage assessment teams will be aware and will dispatch repair crews as soon as possible.

IF THE POWER GOES OUT...

KEEP YOUR COOL

Since hurricanes occur during the hottest time of year in South Florida, heat exhaustion and other heat-related illnesses become a consideration when the power goes out and homes are without air conditioning. Problems can develop after several days of exposure to high temperatures and inadequate or unbalanced replacement of fluids. Here are some tips from the Centers for Disease Control and Prevention:

- Drink cool, non-alcoholic, noncaffeinated beverages. If your doctor limits the amount of fluid you drink or you take water pills, ask how much you should drink when the weather is hot. Also, avoid extremely cold liquids because they can cause cramps
- Rest frequently
- Take a cool shower, bath, or sponge bath

- If possible, seek an airconditioned environment such as a mall or public library, if they have power
- Wear lightweight, light-colored clothing
- If possible, remain indoors during the heat of the day
- Avoid strenuous activities
- Signs of heat exhaustion may include heavy sweating, paleness, muscle cramps, tiredness, weakness, dizziness, headache, nausea or vomiting, fainting, cool and moist skin, fast and weak pulse rate, and fast and shallow breathing. If you experience these symptoms, consider seeking medical attention

USE RUNNING WATER SPARINGLY

During power outages, lift stations that normally pump raw sewage/ wastewater may not be operating if they are not powered by a generator. Please restrict your use of running water as the system can eventually back up into your street, showers, toilets, and sink drains inside your home.

DON'T DRINK THE WATER

Immediately following a hurricane, don't use tap water until you know it is safe. This includes not giving it to your pets or using it for washing, cleaning, cooking, brushing your teeth, making ice, and/or making formula. If a boil water order is issued for your area, follow these guidelines from the Florida Department of Health in Broward County:

- Boil water at a rolling boil for one minute to kill infectious organisms
- If you do not have power, you can mix eight drops (1/8 teaspoon) of unscented household bleach per gallon of water and allow to stand for 30 minutes. If the water is cloudy, add 16 drops (1/4 teaspoon) and let stand for 30 minutes. The water will not be toxic, though it may have a chlorine odor and taste
- If a boil water order is issued, remember that water system boundaries do not always correspond to city boundaries Residents who are not sure of their water service provider should check their water bill or call their individual municipality.

OBSERVE CURFEWS

Listen to local radio and television stations for curfew announcements. Curfews are not unusual for communities that suffer a direct hit from a storm. Roads and highways may be blocked, and hidden dangers may exist after dark such as downed trees and power lines, especially in flooded areas. Law enforcement and emergency services may be strained. All residents and businesses are expected to follow curfew laws. Exemptions to this are essential personnel such as law enforcement, fire-rescue, hospital or other healthcare workers, emergency management, and others involved in recovery efforts.

HOME DAMAGE ASSESSMENT PROGRAM

Broward County's Home Damage Assessment program enables residents to assist in quickly identifying areas of devastation.

Before an event:

- Take pictures of your home and include this information in your emergency preparedness kit
- Download the Home Damage Assessment App by visiting the app store to scan the QR code with your smartphone

After an event:

- When it is safe to go outside, survey the damage to your home and compare to the five Home Damage Assessment levels (shown on the right)
- Select the level photo that best represents the condition of your home. It doesn't matter if you live in a single-family home, condo, townhouse, apartment, duplex, or mobile home

To report damage by phone, call 311.

Remember, you must have access to the photos to make a report, as Hurricane Hotline call takers will only be able to accept numbers "1-4" as damage levels and "5-6" for flood levels.

Resident reports will provide a critical early indication of where major damage has occurred. These reports do not constitute a request for individual assistance and do not replace the normal

grid-by-grid assessments performed by County assessment teams.

DISASTER RECOVERY RESOURCES

Stay tuned to local media for announcements about disaster relief and recovery services that may be available to you. These may include distributions of water and food, mobile medical services, Operation Blue Roof, and FEMA Disaster Recovery Centers. Details are announced once recovery efforts are underway.

QUICK TIPS

Gas Safety Tips

Evacuate immediately

- If you smell natural gas which has the odor of rotten eggs, or see a broken gas line. Ventilate the area by opening windows or opening a door. Do not light matches, turn on any light switches, or use the telephone
- Call the gas company immediately from a telephone outside the home or business. TECO Peoples Gas crews are available to respond to natural gas emergencies. For 24-hour service, call 1-877- 832-6747. If you are unable to contact your gas company, call 911
- If you evacuate, do not turn off the gas supply at the main meter. Only emergency or utility personnel should turn this valve. If you choose to do so, you can turn off the gas for individual appliances
- If you have difficulty re-lighting pilot lights, or if gas appliances have been exposed to floodwaters, do not attempt to operate the appliance. Contact a plumber, qualified service contractor, or your gas company

Telephone/Cell Phone Tips

- Be patient. Expect delays in getting calls through because of the high demand
- Use your phone only for necessary calls, leaving lines open for emergency calls
- Your phone line may be inoperable if your phone equipment requires power. Plug in a hardline

phone (not cordless) directly into the phone jack to verify whether you have service

- Use your cell phone to send text messages which often get through when voice calls will not
- Use your cell phone car charger to charge your cell phone

Tip for Mosquito Bites

Protect against mosquito bites by taking these precautions: stay indoors at dawn and dusk; wear clothing that covers most of your skin; use repellent containing DEET, except on children under two months; get rid of standing water, where mosquitoes lay eggs. 23

Tip For Saving Fallen Trees

If you have a downed tree in your yard and it is not blocking a road and has not downed a power line, it is your responsibility to remove the tree. Downed trees on private property are the responsibility of the homeowner. However, remember that trees that have been overturned are not necessarily lost. To protect the tree until you know whether it can be saved, immediately cover the root ball with soil, mulch or burlap, then keep the root ball moist. To determine whether a tree can be saved, and to learn the correct procedures for doing so, look at “Management Tips for Storm-Damaged Trees” at www.Broward.org/Hurricane. Select A to Z Guide, and go to Trees.

Tip for Medical Needs

Prepare ahead for your medical needs such as dialysis, insulin, oxygen, and any prescription drugs. The emergency refill law now allows you to obtain a 30-day supply of medications when an emergency is declared.

Tip for Special Needs People

If you are elderly, frail, disabled, or have special needs and are concerned about your sheltering plan, or if you want the latest information on shelter

modifications for individuals with disabilities or special needs, contact Broward Emergency Management at 954-831-3902 (TTY 954-831-3940).

Planting

Go native! For a complete database of native trees and plants, and guidelines to help you select trees that do well in the South Florida environment, visit www.Broward.org/NatureScape.

Tip for Disposal Procedures

Many older homes in South Florida were constructed with materials containing asbestos. When clearing debris after a storm, homeowners should use caution when handling building materials. To learn more about the dangers of asbestos and proper disposal procedures, visit www.Broward.org/Environment and select Asbestos Compliance or call 954-519-0340 (TTY 954-831-3940).

Call Before You Dig!

One phone call can prevent damage to underground water, gas, communications, and electric lines; save lives; and prevent groundwater contamination. Call 1-800-432-4770 two business days before digging, so buried utility lines can be located and marked for your safety.

Power Outage Tip

Analog broadcasting for local television stations started in 2009. Batteryoperated televisions purchased prior to 2009 may no longer work. Battery-operated televisions that receive a digital signal are available. For more information call The Federal Trade Commission 1-888-225-5322.

Keep Thermometer in Refrigerator

The temperature should read 41° F or lower. Thawed food can usually be eaten if it is still “refrigerator cold.” However, you should discard any food that

...continued on page 14

has been at room temperature for two hours or more, and any food that has an unusual odor, color, or texture. Remember - when in doubt, throw it out.

Travel Tip

Before you go to the airport or the port, be aware that operations may be interrupted due to the storm. Be sure to contact your cruise line or airline for scheduling information. A list of phone numbers can be found by visiting www.Broward.org/Hurricane, select About Hurricanes, then A-Z Guide, then Airport or Port. Or call 311 or 954-831-4000.
